Submission: Objection

Comments: I object to this Planning application on the grounds that I live at number 23 and this extension will obstruct significant sunlight to our garden and property. The proposal is to extend out to 4.8M, which is a considerable sizeable impact. We currently look out of the window to unobstructed views whereas we will be looking directly at a two storey brick wall making it feel very enclosed and overpowering. All other properties in the avenue are inline with each other and this will be the only property to encroach past every other dwelling. To further extend out the back with complete disregard to the neighbouring properties is going to have significant impacts.
