Comments: I am formally writing to object to the proposal to convert the former John Monroe Hospital in to a C2A Facility. My primary concern is the sites close proximity to two local schools. My older children previously attended one of these schools, and my two youngest will be attending in the near future. Given their countryside setting, these schools operate with minimal security infrastructure - a peaceful open environment that our community deeply values and wishes to preserve. Introducing a C2A facility into this immediate area raises significant safeguarding and safety concerns, for students, school staff and families alike. This proposed development is entirely unsuitable for a rural setting alongside primary educational facilities, and is strongly opposed by local residents. I respectfully urge the planning authority to refuse this application.
