Submission: Objection

Comments: I strongly object to the proposed windfarm at Padwick, Ipstones on a number of points. Namely the environmental impact on the surrounding countryside in terms of the detrimental effect upon the skyline from the village and the scaring of the landscape. The increased traffic chaos that will undoubtedly ensue on the narrow local roads which is currently terrible. The obvious effect this will have on local house prices which will be blighted by their proximity to the development. The adjacent SSSI at Swineholes Wood would also be affected as well as Coombs Valley nature Reserve. Many of the Properties that lie adjacent to the wind turbines area are of significant historical value and culturally important due to the Charles I regicide connection of Bradshaw's Farm. It is a concern to me that the turbines would create noise and visual disturbance on our life in the village and that there may be risks from pollution to the health of residents,
