Submission: Neither

Comments: I am deeply concerned about the planning proposal of the John Munroe Hospital, changing the category from C2 to C2a. The impact this will have on the local community is extensive. The three local schools will have major concerns keeping their young children safe. With the close proximity of such an establishment. The high fencing and security lighting will not have the appearance of what a green belt, conservation area should have. Has this is a rural area emergency service may take longer to respond to any incidents that may occur at this type of establishment. Has an elderly local resident it will make me feel vulnerable.
