Submission: Objection

Comments: I strongly object to this planning application on the grounds that a c2a type facility should not be placed between two schools , one a primary school and another a special needs school. There is already enough traffic at busy times in this area given the nature of the two establishments already there and another will do nothing but increase the load on already busy roads. The facility is nowhere near purpose built for its new application, there is nowhere in the plans of how it will be mitigated to keep in the facility dangerous individuals who pose a threat to both the schools.
