Dear Mr Hayworth,

I write this letter
to express my objection to the building of
wind turbines on Mr Whitlocks property.

My home is right on the crossroads
between Bradshaw Lane and The main
road between Ipstones and Bottom House.

Any large construction will cause great
damage to my property, by large lorries

1 Noise

2 Dust, dirt & vibration

3 Fumes from the large construction
lorries.

The road down Bradshaw Lane
is mainly single track, it is in

very poor condition which will not be helped by a large number of heavy lorries. Waterpipes ~~with~~ which carry supplies to a number of properties could be damaged by large heavy vehicles, driving over the grass verges where the pipes run.

I feel very annoyed that I have not had any correspondence about this proposal, having to hear it by mouth from another very concerned neighbour.

I hope my worries will be taken into account before any decision is made.

from
