Enquiry details

the erection of a battery of three garages

I live on john street and the area behind my house is for access for the fire brigade to get to the rear of the shops and houses if needed and it would cause an issue for them! also it wouldn't be suitable because to get to that area it is very narrow for ANY delivery vehicles that may use the area! (delivery of materials and skips for the building of the garages would be left on john street which would be a public nuisance!!) also I wouldn't like the extra noise (people using the area for illegal activities drugs & drinking etc....) and the dust it would create as I enjoy sitting out in my back garden and my grandchildren play when they come around! also I have a 4 foot patch of land at the rear for the foundations of my garden wall as I would imagine all the other houses on john street has this area too.
