Submission: Objection

Comments: Once again we have a non material amendment to the BESS on Rownall Road (SMD/2022/0444). It is undeniable that this development that was approved in December 2022 was non deliverable and as such should never have been passed. Each NMA that has since been approved has been anything but non material.

I am fully aware that the definition of an NMA is subjective and at the discretion of the local council, but common sense would tell you that everything about this development is material.

I ask that this application is taken to the planning committee and that they are then taken to see the absolute decimation of the area. Those of us local to this monstrous destruction are being told we are imagining the destruction; we need councillors to see it for themselves to see what they have approved.
