Submission: Objection

Comments: This is an further ammendment to the BESS that has already begun and it proves that the original plans were undeliverable.

So, I object to the height of the gas tower together with all the work that is taking place on green belt and former farm land.

I was not aware that there would be a pond formed and that water would be taken from the water network to fill it.

I ask that it should go back to the planning dept. .
