To Whom It May Concern:

I first became acquainted with Mr Jackson (J D Jackson Plant Hire) approximately 30 years ago through business at his premises at 459, Uttoxeter Road, Blythe Bridge

During that time I have parked my machines overnight at his premises when working nearby. I have also purchased aggregates and propane gas from him from time to time which he stored there.

On occasions I have also seen lorries using the yard for overnight parking and highway maintenance machines and materials being stored there whilst carrying work out on the bypass and the roads in Blythe Bridge. There as also been narrow boats constructed there for approximately the past 11 years.

If you need anymore information please contact us.

Yours sincerely

To Whom It May Concern

Re No 459, Uttoxeter Road Blythe Bridge.

I have lived at 439 for 40 years during which time it has always been my habit to exercise my dogs by walking past Mr Jacksons property No 459 on my way to Tater Lane.

Over the years, I have been aware of the changes Mr Jackson has made to the property, from the demolition of the derelict farm buildings, the building of his house, the construction of wide vehicular access from the by-pass, and the making up of the ground to the rear of the property etc.

I have noticed that Mr Jackson has frequently used this area to store various pieces of Mechanised Agricultural and Earthmoving Equipment, which I assumed he would normally use in the course of his Agricultural Contracting Business.

Other items that I have also noticed being stored include: -

Steel Canal Barge Hulls,

Propane and Butane Gas Bottles,

Derv Fuel Tanks,

Commercial Vehicles,

Trailers,

Containers,

Caravans.

In fact it was after noticing the Caravans that I approached Mr Jackson and arranged to store my own caravan on his property between 2000 and 2008.

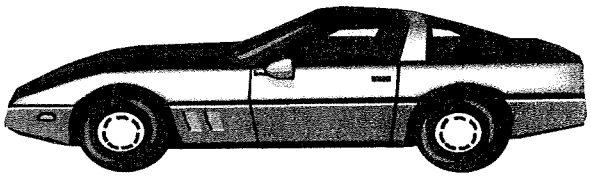

Yours Faithfully,

L. D. Sales
