Dear Ms Scott

Re: Certificated Site Application No. 118/032 at Lask Edge Farm

We have now completed our enquiries in respect of your application.

We are prepared to issue a certificate, subject to a suitable provision for a **chemical disposal point** with an **associated water supply**, which are both clearly labelled, to allow members to swill out their containers. The chemical disposal point must contain the waste, and not allow it to soakaway into the ground.

We also require a **separate drinking water tap to be fitted**, also clearly labelled and **suitable rubbish bin/s** which are emptied on a regular basis. We have a supply of signs which can be used to clearly indicate the facilities available - details attached.

May we advise you that any work you carry out **may require planning permission**. It is **your responsibility to ensure that if required, planning permission is granted before any work is carried out**.

Once we receive your **written** confirmation that the site has the above facilities, we will then arrange for a **further inspection**.

We also require confirmation that when the above requirements have been completed, that it is highly recommended that **public liability insurance cover** is obtained and details are forwarded onto ourselves prior to the issue of a Certificate. Please contact Kay Mitchell at Club Care on Tel: 01277 243014 for further details.

Yours sincerely

Laura Swanborough
