BGS Boreholes Datasheet

Order Details:

Order Number:

52105505_1_1

Customer Reference:

ST13776

National Grid Reference:

397810, 338960

Slice:

A

Site Area (Ha):

15.12

Borehole Search Buffer (m):

50

Site Details:

16 Sandon Road

Cresswell

STOKE-ON-TRENT

ST11 9RB

Client Details:

Mr M Woodcock

Wardell Armstrong LLP

Sir Henry Doulton House

Forge Lane

Etruria

Stoke on Trent

Staffordshire

ST1 5BD

Data Type	Page Number	On Site	0 to 50m
BGS Boreholes (50m)		None	None

Introduction

The Environment Act 1995 has made site sensitivity a key issue, as the legislation pays as much attention to the pathways by which contamination could spread, and to the vulnerable targets of contamination, as it does the potential sources of contamination.

For this reason, Landmark's Site Sensitivity maps and Datasheet(s) place great emphasis on statutory data provided by the Environment Agency and the Scottish Environment Protection Agency; it also incorporates data from Natural England (and the Scottish and Welsh equivalents) and Local Authorities; and highlights hydrogeological features required by environmental and geotechnical consultants. It does not include any information concerning past uses of land. The datasheet is produced by querying the Landmark database to a distance defined by the client from a site boundary provided by the client.

In the attached datasheet the National Grid References (NGRs) are rounded to the nearest 10m in accordance with Landmark's agreements with a number of Data Suppliers.
