- [ ] Unknown

14. Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

b) Designated sites, important habitats or other biodiversity features:

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

c) Features of geological conservation importance:

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

15. Existing Use

Please describe the current use of the site:

DOMESTIC RESIDENTIAL

Is the site currently vacant? [x] Yes [ ] No

If Yes, please describe the last use of the site:

DOMESTIC RESIDENTIAL

When did this use end (if known)? DD/MM/YYYY (date where known may be approximate) UNKNOWN

Does the proposal involve any of the following:

Land which is known to be contaminated? [ ] Yes [x] No

Land where contamination is suspected for all or part of the site? [ ] Yes [x] No

A proposed use that would be particularly vulnerable to the presence of contamination? [ ] Yes [x] No

If you have answered Yes to any of the above, you will need to submit an appropriate contamination assessment.

16. Trees and Hedges

Are there trees or hedges on the proposed development site? [ ] Yes [ ] No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? [ ] Yes [ ] No

If Yes to either or both of the above, you will need to provide a full Tree Survey, with accompanying plan before your application can be determined. Your Local Planning Authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to construction - Recommendations'.

17. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste? [ ] Yes [x] No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

18. Residential Units (Including Conversion)

Does your proposal include the gain, loss or change of use of residential units? ☐ Yes ☐ No
If Yes please complete details of the changes in the tables below:

For
Proposed Alterations, Extension & Refurbishment
of
Bottom Cottage
Wootton Staffs

Design

1.00 Use

1.01 The use of the original building is domestic residential.

1.02 Upon completion of the proposed works and refurbishment, the use will be domestic residential.

1.03 The building currently is falling into a state of disrepair and the proposed works will be to reinstate the property in order to assure its long-term survival and to refurbish the property back into a good state of repair.

2.00 Amount of Development

2.01 To the east, currently there exists an element of an original single storey extension the two flank walls partially remaining.

2.02 The remaining walls will be rebuilt to recreate a new study and reinstate the single pitch lean-to roof.

2.03 To the north elevation, where an existing single storey extension has been removed, the wall plaster marks remain to show the original position, and this will be reinstate as a single storey extension with a cat slide roof linked into the existing main roof.

2.04 The extent of the reinstatement on the north and east sides of the building, will replicate the existing footprint that was original as part of the overall dwelling.

3.00 Layout

3.01 The layout has been retained following the original footprint of the building, with the exception of the staircase relocated into a central hallway.

3.02 Extensions to the north and east replicate those that would have originally existed and therefore does not extend the footprint of the building.

4.00 Scale

4.01 Proportions of windows have been reinstated to replicate those which would have been original and proportions of the extensions to the north and east follow those which are believed to have been original.

4.02 The footprint of the extension to the north and east follows the line of those which currently exists on site, and the extension to the north follows the existing line of the extension defined by plasterwork on the existing wall.

4.03 The single storey extension on the east elevation replicates the width and depth of the original extension.

5.00 Landscaping

5.01 By the carrying out of the works there are no areas of landscaping within close proximity to the dwelling which will be affected by the proposed works.

6.00 Appearance

6.01 Natural materials of stone and brickwork have been retained as appropriate and where those extensions meet the existing building, materials to match are used throughout.

6.02 A number of windows with natural stone surrounds, have the central mullion missing, and those central mullions will be replaced to replicate the original scale of the opening.

6.03 Where openings remain, new windows will be installed in joinery to the size of the existing openings.

6.04 Plain clay tiles are used throughout, to reinstate the areas of existing roof overhauled, and to replace new areas of roof constructed as part of the works.

7.00 Access

7.01 Access to Bottom Cottage is via the private estate roads forming part of the Cote Farm Complex.

7.02 By the carrying out of the works no alterations will be required or intended to be carried out to the development site.

8.00 Conclusion

8.01 The scheme as currently submitted has been the result of considerable and extensive discussions both by post and meetings in the office of the Council with Dr. Faith Cleverdon, who has made a considerable input into the final scheme and layout.

8.02 Discussions with Dr. Cleverdon have extended to all elements including the materials, the retention of materials, the provision of new mullions with stones surrounds as appropriate to reinstate the building to its original former self.

8.03 Dr. Cleverdon has made a large impact into the overall scheme as submitted and has agreed to the scheme as currently proposed and finds the submission in terms of design and purpose to be acceptable.

8.04 With such a large input from the Conservation Office, and input from Dr. Cleverdon's point with the Planning Officer as appropriate of the Council, we believe the scheme as submitted will refurbish and reinstate elements of Bottom Cottage which would have existed a number of years ago, and to replicate those elements and replace as appropriate to ensure that the building is refurbished as closely as possible to its original form.

8.05 All materials used throughout will match those existing and repairs to face work and face stone etc will be strictly in accordance to replicate and match those which currently exists on the site.
