DESIGN AND ACCESS STATEMENT

APPLICANT : **D Weston**
DATE : **May 2008** **JOB No.** : **1156**

DESIGN

ASSESSMENT

Assessment Area

The site is an isolated area of vacant land within the settlement boundary of Wetley Rocks with a large frontage onto Leek Road. Other than the Methodist Church to the south west of the site, the application is located in a predominantly residential area. Land to the rear of the site is agricultural. Given that the nature of the proposal is residential, it is considered that the Assessment Area should be informed by the character of dwellings near the site.

Physical

The application site is currently vacant. Its front boundary is a natural stone wall. Existing housing area is mixed in both age and size, although it is principally site represents part of the garden of Fairway. Fairway is a substantial hipped, predominantly brick two storey house. It was built in about the 1930's and has a plain tiled roof. The style and age of housing in the area is mixed, although close to the site development mostly dates from the 1970's. Buildings are usually large within generous plots. There is a history of dwellings being built in large gardens in Birchall.

Planning Policy

The Development Plan for the area consists of the saved policies of the Staffordshire and Stoke On Trent Structure Plan and the Staffordshire Moorlands Local Plan. Policies relevant to this proposal are contained in the local plan. The Local Plan places the site in the development boundary of Wetley Rocks. Policy H4 states that new housing development will be expected to locate within settlement boundaries where it can be serviced and where it is sympathy with the area.

PPS1 Delivering Sustainable Development sets out the Governments strategy for the provision of new development in sustainable locations. The village has a local general store as part of the petrol filling station. A bus service is available to the nearby market towns of Leek and Cheadle.

PPS3 Housing requires that when Local Planning Authorities determine planning applications for housing they should have regard to its policies as material considerations (paragraph 68). It states that LPA's are responsible for delivering both the right quantity of housing to meet demands and needs in its area, and the right quality and mix for its communities. Para 25 states that one of the Government's key objectives is to provide a variety of high quality market housing and includes the managed replacement of existing housing where appropriate. Para. 36 states that housing should be developed in suitable locations which offer access to local jobs, key community facilities and infrastructure.

Secure By Design

The layout of the proposal and the detailing of the proposed dwelling are capable of satisfying secure by design principles.

8 / 0 1 - 7 9 /

MAY 2008 - S.M.D.

INVOLVEMENT

There has been no pre-application involvement for this application. However the proposal is influenced by the pattern of new residential development near the site, at Randles Lane and to the south west of the application site beyond the Church.

EVALUATION

The site lies in an area where the principle of housing development is supported by planning policy. The size of the plot is considered appropriate for a single dwelling, taking into account the pattern and density of housing nearby.

The position of the proposed dwelling, its relationship with existing houses satisfies the Space about Dwellings standards at Appendix 3 of the Local Plan. The design of the proposed dwelling is a reserved matter and will need to reflect the character of development in the area.

The site access will be provided with visibility splays.

DESIGN

Use

The application proposes a residential use by the erection of a single dwelling.

Amount

The proposal is for the erection of a single detached dwelling. This equates to a site density of 16 dwellings/hectare. Whilst this is below Government guidance on urban densities, it is largely driven by the need to deliver a development that contributes to the character of the area and is inkeeping with densities in the area.

Layout

In accordance with paragraph 52 of Circular 01/06 the application drawings show an indicative layout. It also illustrates an indicative access point.

Scale

The application proposes a building having the following scale parameters:-

Height:	Maximum 8m;	Minimum 9.5m
Width:	Maximum 15m;	Minimum 18m
Depth:	Maximum 7m;	Minimum 13m

Landscaping

Given the nature of the site and then proposed layout, landscaping can be provided within the site.

Appearance

Proposed materials is a reserved matter. However it is likely the walls will be brick with the roof likely to be plain tiles.

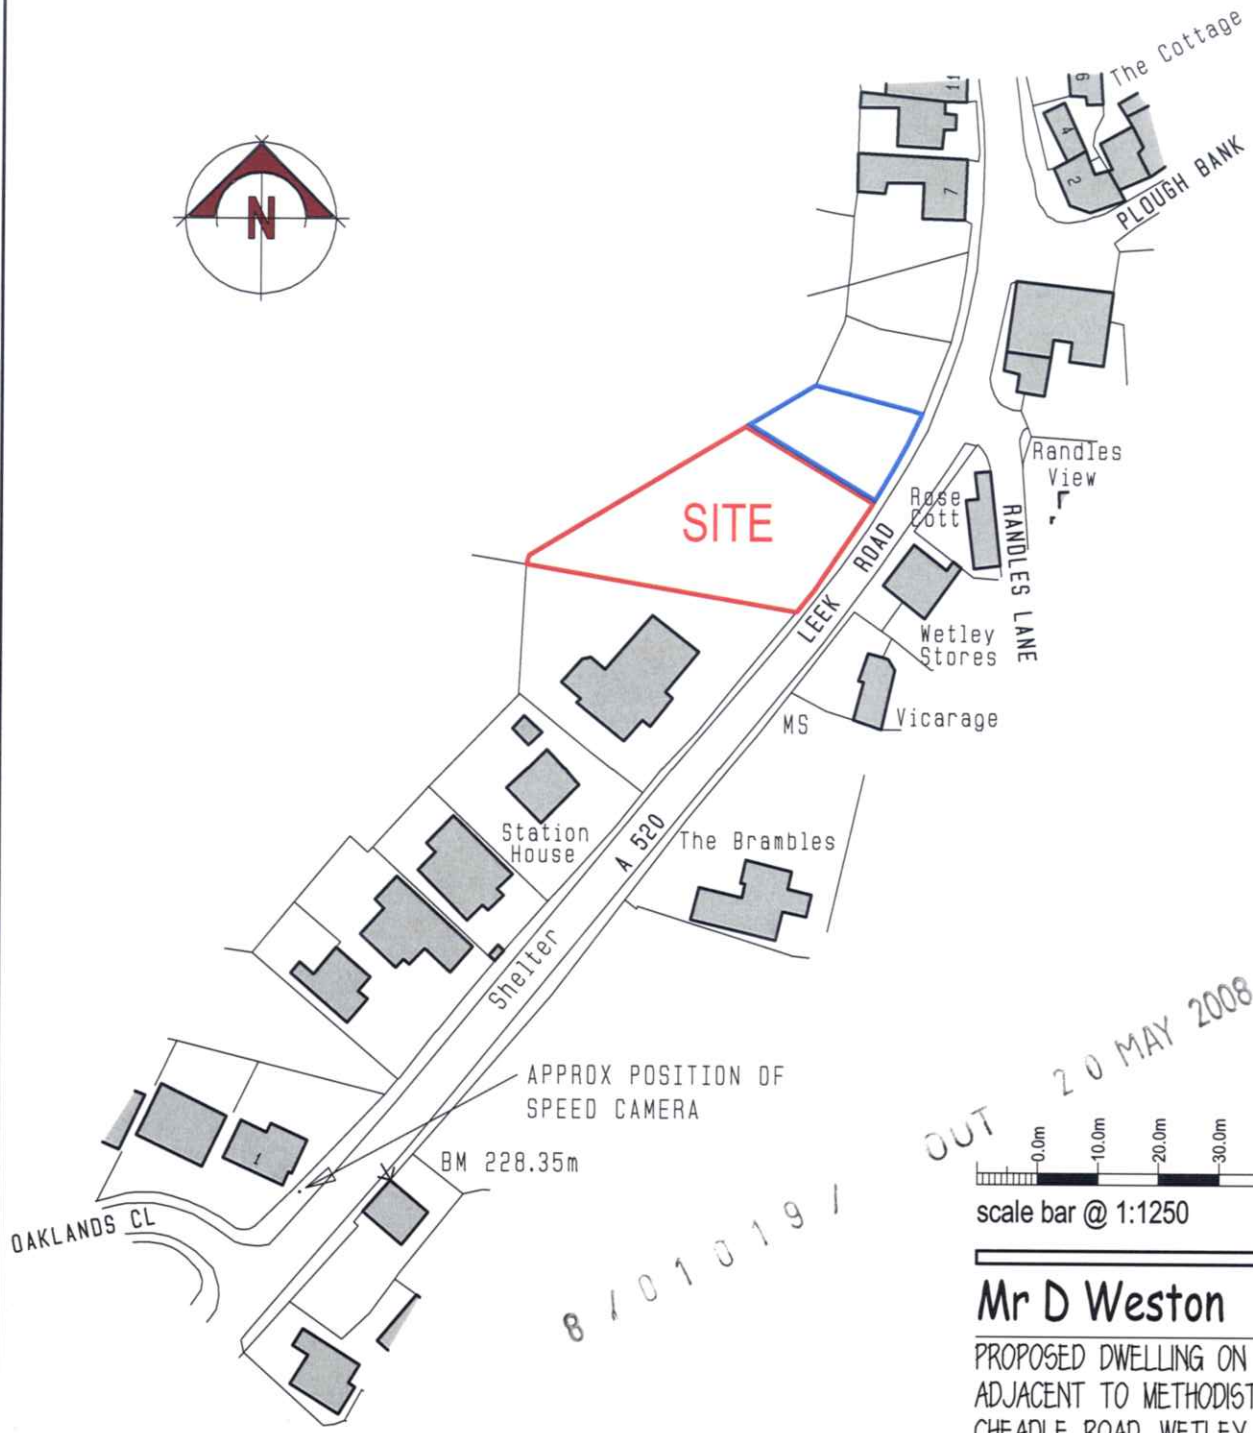

ACCESS

VEHICULAR AND TRANSPORT LINKS

The site is located on a major bus route providing access to Leek Bus Station, Cheadle and the Potteries.

INCLUSIVE ACCESS

The development provides for occupation by less abled people through compliance with Part M of the Building Regulations by the provision of level accesses to the principal entrances to the proposed houses, and provides internal arrangements, such as the width of corridors and doorways, that are suitable for less able access.
